

Heartland Law Enforcement Training Institute *Presents*

***G*ang*U*ndercover*N*arcotics Investigators Training Conference**

February 5-8, 2018
Gold Coast Hotel and Casino, Las Vegas, NV.

A four day (32 hour) training program designed for law enforcement investigators, officers and supervisors participating in gang, narcotics or undercover operations. These types of operations require a great deal of planning to ensure safe and successful outcomes. This training course will give attendees the tools needed to properly plan and execute an operation whether it pertains to a short term investigation or a long term more involved investigation.

Through the course of this four day specialized training program attendees will be brought up to date on current trends in drug trafficking and will receive information in a variety of different areas including money laundering and working federal firearms violations. Simply put attendees will be prepared at the end of this conference to work a target from a variety of different approaches that should ultimately lead them to their investigative goals.

Converting gang members into cooperating sources is a difficult if not impossible task in many circumstances. Attendees will learn what triggers a gang member's behavior and how to use the gang member's mindset and value system against him to bring him over to the right side of the law.

Working gang, narcotics and undercover investigations can be very stressful to an officer. Coupled with the day to day stress incurred in life it can sometimes become physically and emotionally draining. Stress management techniques will be given to attendees so that they can deal with what happens to them both on and off the job.

The instructors for this conference have many years of experience in narcotics, gang and undercover operations and have a wealth of information to share with attendees of this program. This is truly a unique program as it cross trains attendees in a variety of different types of investigations and investigative techniques. This program is a must for anyone serious about working gangs, undercover or narcotics investigations.
